Packaging System

FALCON TEST ENGINEERS REPORT No: 893

ASSEMBLY & CONFIGURATION OF PACKAGING:

Place the filled inner packagings into the box. Ensure that they are in a stable upright position and that they are seated firmly on the base foam insert. Place the top foam insert over the inner packagings. Close and seal the box with 48 mm pressure sensitive self adhesive tape in the same manner that the base of the box has been sealed. Add the required amount of absorbent material if specified. Label the box as required.

(Make sure that the labels or any other markings are not obliterated or obscured in any way).

Note: The use of other packaging methods or components may render the approval of this package invalid.
